

State of Rhode Island
Department of Administration

INTER-OFFICE MEMORANDUM

Office of Accounts and Control

TO: Chief Financial Officers
FROM: Marc A. Leonetti, State Controller
SUBJECT: DUNS Number
CFO 09-13

DATE: July 22, 2009

The Office of Management and Budget utilizes the Data Universal Numbering System (DUNS) as a way to keep track of federal grant money that is distributed. As a result, DUNS numbers are required for grant applications. To facilitate the grant application process, Accounts and Controls has obtained an updated list of existing DUNS numbers across all State agencies. This list has been posted to the Accounts & Control website. If there is a question regarding an existing number or the process to request a new number, please call Steve Blazer at 222-2267.
